

A creative and commercially minded design leader with a proven track record of building cross-continental teams and delivering products used by millions. I thrive at the intersection of design, technology, and business strategy, underpinned by a focus on generational engagement.

## Executive summary

- Lead a cross-continental design team delivering design and strategy for **Verizon's Fios TV** ecosystem (set-top box, mobile, web)
- Implemented design enhancements to **Verizon Fios TV** that doubled the ARPU and drove 15% YoY reduction churn
- Secured \$9M **Verizon** contract renewal with a 100% client satisfaction score
- Served as part of the **TCS** leadership team transforming the 800+ global design practice
- Hands-on design for high-profile clients including **Cisco**, **Virgin Media**, and **Premier League**
- Sole designer for **Fantasy Premier League** app, topping the charts for 4 seasons running

## Skills & Capabilities

- Driving design strategy and innovation in partnership with executive leadership
- Leading cross-continental design teams and fostering high-performing, collaborative cultures
- Hiring, mentoring, and growing designers across all levels
- Managing multimillion-dollar design budgets and engagements
- Building trusted relationships with senior stakeholders and cross-functional partners
- Shaping product strategy, roadmapping, and prioritisation
- Championing DesignOps and design-led ways of working
- Facilitating outcome-driven workshops and innovation sprints
- UX research, usability testing, and data-informed iteration
- Design system leadership and brand expression at scale
- Accessible and inclusive design best practices
- Advanced proficiency with Figma, Adobe Creative Suite, Jira, Webflow, and AI-powered design tools (LLMs, etc.)

## Notable Experience

Mar 2023 - Present, permanent

**Tata Consultancy Services Interactive - Design Director** (formerly W12 Studios)

Verizon's Fios TV products (set-top box, mobile and web) have been my sole focus since joining TCS. My role is to unify the experience across platforms, drive subscriber retention, and innovate for the next generation of viewers.

- Drove a 15% YoY reduction in Fios TV churn through design improvements, bundling strategy and content discovery
- Helped double the ARPU through improved monetisation pathways
- Partnered closely with product owners, brand and development teams to align roadmaps and elevate experience quality
- Led a high-performing, collaborative team culture across two continents

Jun - Sep 2021, contract

**Cisco - Product Design** (with Fueled agency)

Designed a fully native iOS experience for Cisco's Webex app in close partnership with Apple who use Webex as their primary internal communication platform.

Mar - Sep 2020, contract

**Deltatre - Lead Designer**

Led a team of five designers to deliver Bally Sports' new \$40M TV experience across ten platforms including TV, mobile, and consoles. Navigated pandemic-related constraints to maintain delivery excellence and establish scalable design patterns and UX foundations for a complex, multi-platform sports experience.

OLDER

**Virgin.com** (2019, contract)

Designing a new website for Virgin Group, in collaboration with Foolproof.

**Monstarlab (Nodes)** (2017 - 2019, permanent)

Led a five-person design team delivering for clients including Audi, Avon and Reckitt Benckiser.

**Travellex** (2017, contract)

Design collaboration for the Travel Moneycard app and web platform.

**Premier League** (2011-2016 contract)

Sole designer for Fantasy Premier League app and web, used by millions globally.
